How many students do you anticipate participating during the school year? _____

Our team will be (check all that apply): part of an existing class a YES! class

offered as an extra-curricular activity other _____

YES!, we want to participate in the Youth Eco Solutions for the 2019-2020 school year.

As team members, coaches, and sponsoring school/organization, we commit to the following:

- A payment of \$600 to help cover YES! program and event costs. Teams are encouraged to seek a local sponsor or your team can implement a student participation fee to help cover this cost.
- Raise funds as needed to support your community action project through local support (utility, rotary club, green fundraisers, etc.)
- Arranging transportation to up to three events during the school year (dates and locations TBA).
- Participating in YES! events (including the Fall Summit, Winter Workshop, and Spring Judging).

YES! operates in collaboration with Prairie Woods Environmental Learning Center, Laurentian Environmental Center, and Ney Nature Center. Major funding for YES! is from the Minnesota Environment and Natural Resources Trust Fund (ENRTF) as recommended by the Legislative-Citizen Commission on Minnesota Resources (LCCMR), The McKnight Foundation, Waste Management, and others. For a full list of supporters and more information about YES!, visit www.yesmn.org!

www.yesmn.org

- Meeting regularly during the school year as a team.
- Choosing water, waste, and energy action project(s) that are meaningful, developing an action plan, and working together to implement project(s) with and for our school and community.
- Reaching out to our community through participation and/or communications for our YES! team activities. Branding ourselves as a YES! team (using the YES! logo on publications, etc.).
- Measuring and monitoring the impact of our project(s).
- Submitting a Final Report and Power Point OR team website and responding to requests from your YES! Coordinator in a timely manner.

YES! resources available for your team/community:

- Energy education (including energy efficiency, waste reduction, renewable energy, local foods) and support through a YES! Coordinator and a network of YES! teams in Minnesota.
- Access to funds to assist with costs related to the program such as transportation, substitute teacher fees, and energy action project materials/work. Assistance with additional funding.
- Hands-on, service learning and civic engagement opportunities through YES! activities.
- Facilitation of your team's asset-mapping, brainstorming, and action-planning process.
- Face-to-face connections with businesses and other resources.
- Tours and workshops customized to your team's interests. This includes the opportunity for up to 10 students from your team to attend the YES! Fall Summit and YES! Winter Workshops (additional students may attend for a nominal fee).
- Assistance with planning and implementing community events to highlight and support your energy action project(s).
- Tools and resources for project implementation, measurement, and monitoring.
